

UNIQUE

# Unique, like you.

---

UNIQUE, the new line of photo albums with a coordinated slip-case, has been inspired by the harmony and rhythm of finishes in wood and fabric, with a young and lively design, making it possible to create personalised and very original solutions.

Conceived for photographers looking for fresh and distinctive visual ideas, the UNIQUE Series is authentic and natural, neat and essential, enriched with the elegant feel of Italian oak combined with the numerous colours offered by natural cotton and mixed linen.

A pleasing contrast that makes every piece unique and unrepeatable, just like the story it contains.

# The concept

---

We love things made well, with the mind and the heart. UNIQUE is characterised by the typically Made in Italy passion to create new trends, giving shape to ideas, creativity and taste, in the continuous search for new visual styles in order to offer a contemporary interpretation of the wedding day.

# The design

---

The UNIQUE Series represents the perfect marriage between romantic suggestions and minimal features.

It's designed to last over time, thanks to the materials with which it can be covered, to create a hand-bound photo album with perfectly flat double-page spreads (with no cut in the centre) and a coordinated slip-case.

UNIQUE is produced in the Italian style and design that has always characterised our craftsmen's quality of work.

For the UNIQUE slip-case we have developed an innovative design. The structure uses a hidden zip that makes it possible to open the slip-case up to 180°.

# Uniqueness

---

The UNIQUE Series stands out for the particular nature of its finishings: from the soft feel of natural cotton and mixed linen fabric to the more sober and rigorous feel of Italian oak. The elegant charm of the unique details made by hand make every product inimitable, like the personality of whoever chooses it.

# Personalisations

---

You can personalise the UNIQUE album cover and slip-case with the only limitation that the texts and graphics have to be black.

Or let yourself be inspired by the pre-set themes.

The UNIQUE photo album is “lay-flat”, with a panoramic 180° opening and high thickness pages.

You can choose from among three types of paper for the interior:

#### **Satin photographic paper**

Photographic paper for chemical printing. White, glacier, slightly satin finish. The micro-porous surface produces exceptional color results .
