

MEMORY BOX

MEMORY BOX

Oak photo box with separator for USB flash drive.

Sliding opening with three types of customizable cover: wood, fabric and full print canvas.

FULL PRINT CANVAS PERSONALIZATION

The cover is composed of a panel covered in canvas fixed on the wooden base.

The entire canvas surface is fully printable and customizable. There are no limits to your creativity: you can create custom graphics, use a photographic image or let yourself be inspired by our colorful preset.

WOOD PERSONALIZATION

The personalization is achieved by direct printing on the wooden cover. Black or white logos are available.

You can insert a graphic of your choosing or use one of our many proposals.

FABRIC PERSONALIZATION

The cover is composed of a panel covered in fabric (cotton linen blend) fixed on the wooden base. Black or white logos are available.

The four colors that can be matched to your MEMORY BOX are:

Beige

Sand Beige

Ultramarine

Black and White

You can insert a graphic of your choosing or use one of our many proposals.

WOOD

Memory box is made of oak wood.

Pleasant to touch, it has variations of yellow-brown color with veins and knots, even marked, which fade into amber.

This natural chromatic variability makes each Memory box unique and inimitable.

FUJIFILM

PAPER

For MEMORY BOX we use the traditional chemical print method on white, glacier, slightly satin photographic paper. This paper has a micro-porous surface which gives exceptional color results, high fidelity of tones and brightness of the images, an excellent rendering of details and contrasts.

For your souvenir photos you can choose between full bleed and non-bleed printing or build creative collages.

And remember that you can print up to 130 photos.

Minimum order quantity: 30 photos.

(A)

OPTIONAL USB FLASH DRIVE

MEMORY BOX can be supplied with or without a USB flash drive at an additional cost of €16.40.

The USB flash drive has a capacity of 8 GB and is formatted to FAT32, which is excellent for storing photos and videos in high definition that you can upload directly without initialization.

The USB 3.0 guarantees the best read and write speeds.

The device is compatible with most Smart TVs, decoders, mobile phones and media players.

For your MEMORY BOX you can choose between two different types of USB flash drives:

(A) Wooden USB Flash Drive

(B) Glass Bottle with Cork USB Flash Drive

(B)

INTERIOR OPTIONS

For a better placement of the USB flash drive inside the MEMORY BOX you can choose between grey tissue paper and straw.
